

The best and longest lasting acrylic floor finish available.

BioShine

BioShine is a 33% solids metal cross-linked acrylic copolymer finish for asphalt tile, vinyl tile, rubber tile, linoleum, terrazzo, wood block and concrete floors. BioShine lasts longer and maintains its shine. High speed buffable.

- 33% solids • Highly resistant to marks and abrasions
- Non-yellowing
- Detergent resisting
- Brightens colors
- Preserves and protects floor surfaces
- Spreads smoothly and evenly on light or dark floors
- Does not streak or puddle
- Dries to a self-polishing shine in 20 – 30 minutes
- Less recoating – lower maintenance costs
- Covers approximately 1500 – 2000 sq. ft. per gallon
