

With custom colors and by adding flecks there are unlimited possibilities.

## EZ-Poxy 100% epoxy floor coating

Your facility could have this same showroom look using our EZ-Poxy Floor coating system. EZ Epoxy is a super strength coating and sealer for high traffic floors. Excellent for containment areas, especially when an acid and chemical resistant coating is required. Use EZ Epoxy to give old worn-out floors a new abrasion resistant surface that will stand up to acids, alkalies, solvents, heat and cold and to protect new floors from wear, spills and damage.

### Features

- Resists chemicals, impact, corrosion and abrasion
- No odor - unlike solvent based epoxies
- 100% epoxy resins - no loss from evaporation
- Will not break down at temperatures below 550°F
- Can be applied as non-slip finish
- Available in a variety of colors as well as clear
- Mini kit covers approximately 200 sq. ft. at 10 mils DFT
- Standard kit covers approximately 400 sq. ft. at 10 mils DFT
